

Friday - 14 December 1951

1. Mr. Houston and I discussed the CIA legislative program for 1952 with Mr. Hedden, and he approved our revisions in accordance with his comments of 4 December. He then proposed to take the matter up with the Director and suggested we so inform Mr. Wolf. Mr. Wolf expressed considerable concern over Tab B regarding the repeal of Sec. 10(a)(2) of Public Law 110. It was Mr. Wolf's feeling that we should explore this point with the Bureau of the Budget and the Comptroller General prior to submitting it to the Director for approval.

2. In connection with the memorandum which I have prepared for the Director on whether he could legally apply for the State of Indiana veterans' bonus, [] now informs me that the Director has determined not to make such application.
